Вариант 1 School

Task 1. You are going to read the text aloud. You have 1.5 minutes to read the text silently, and then be ready to read it aloud. Remember that you will not have more than 2 minutes for reading aloud.

School life can be quite interesting and sometimes a bit challenging. Many students consider wearing a uniform to be just a part of their everyday schedule. Uniforms are designed to create a sense of equality and community, allowing students to focus more on their studies rather than fashion. However, not everyone agrees with this approach. Some students feel that uniforms stop them from expressing their personality. The relationship between teachers and teenagers is another important aspect of school life. Teachers are there to guide and support, helping students understand complex subjects while encouraging personal growth. The best teacher-pupil relationships are based on mutual respect and understanding. However, misunderstandings can occur. Teenagers might sometimes feel that teachers do not appreciate their unique perspectives or the challenges they face outside of school. Open communication can help bridge this gap, allowing teachers to see students as individuals with their own stories.

Living in a city has perks, but so does life in a village. In a village, you wake up to birds tweeting instead of traffic, find peace, green spaces, and friendly neighbours. People know each other well, making it feel like a big family. However, some conveniences found in cities, like public transport and shops, may be missed. City life offers endless opportunities with concerts, museum exhibitions, and new restaurants. You can experience different cultures all in one place. Choosing between a city and a village depends on what you value more: the excitement of city life or the calmness of village living. Each has unique charm and potential challenges.

Children as young as 7 can set the table or feed pets. Teenagers, from 13 to 18, often mow the lawn, cook meals, or walk the dog. Chores teach responsibility and independence. In a family of four, if each person does chores for 30 minutes a day, that adds up to 2 hours daily, or 14 hours a week. That's a lot of help!
